last tryn. I think be will be greatly disappointed.

Last Monday was Chicago's Annual Labor Day. More than 30,000 laborers, members of Labor Unions, were out on their holiday. Mr. Bryan was billed to speak at Sharpshooters' Park. I had never seen him, and actuated also by a dealer to see the great numbers of people who would reash hither to bear the "Boy. Orator of the Platte." I went up there. He had been talking some ton minutes before I arrived. I immediately went around behind the building that he was speaking from, being a large stand with roof and three sides, a platform extending out from the front. I expected to see 50,000 yelling people; instead, when I got on the platform, within ten feet of him, I saw the exact size of the crowd, and I do not believe there were as many as 5,000 who were in front listening to him, and 20 per cent. of them were women. The rest were not all in sympathy with him, for after he was through I heard many expressions of men who were bitter in their denunciation of him for taking that opportunity, when he was a candidate, to make a speech. He certainly had far from a large demonstra. a candidate, to make a speech. He cer tainly had far from a large demonstra

tainly had far from a large demonstra-tion.

The papers next day spoke of the "throngs," that heard him, when not one of the persons who wrote the headlines in the papers have where Sharphooters' Park was. They took it for granted a large crowd was there and wrote it up accord-lagly. "The true, 5,000 is a large crowd, but considering the circumstances, Labor Day and the great advertisement he had that he would speak, and a very beautiful day, I know Mr. Bryan was sorely dis-appointed.

I am now convinced beyond doubt that with all his demanquery and lying, seeking to divide the classes in this country by arraigning the rich against the poor, the laborer against the employer, that he will me get the vote of Illinois.

He cert saily is the champion destroyer of public confidence. There is not a day that passes over my head that I do not hear lots of Democrats sey that they will vote for McKinley. Down with Bryan.

Andrew Jackson's Eighth Annual Message.

"A depreciation of the currency is always attended by a loss to the laboring classes. This portion of the community have neither time nor opportunity to watch the ebbs and flows of the money market. Engaged from day to day in their useful toils, they do not perceive that, although their wages are nominally the same, or even somewhat higher, they are greatly reduced, in fact, by the rapid increase of currency, which, as it appears to make money abound, they are at first inclined to consider a blessing.'
